OBJECTIVE

I am a passionate tech enthusiast with expertise in Java, Python, SQL & Full Stack Development. Experience in developing innovative projects. Eager to contribute my skills in cutting-edge technologies towards creating impactful solutions. Committed to continuous learning, staying updated with the latest industry trends and technologies. Seeking opportunities to further enhance my skills.

SKILLS & ABILITIES

Language & Technologies:

- Java
- Python
- JavaScript
- HTML
- CSS
- Node.js
- React.js

Database:

- SQL
- MySQL
- Oracle
- Amazon Web Services
- Google Cloud
- Firebase

Developer Tools:

- Jupyter Notebook
- Google Colab
- Android Studio
- GIT
- API
- Docker
- IOT

TRAINING & INTERNSHIP

05.2024 - Current

Java Full Stack Developer

QSpider Software Development Training Institute, Noida

Gaining hands-on experience in Full Stack Development.
Focused on mastering both front-end and back-end technologies.

06.2023

Computer Vision & Intelligent Transportation Systems

IIT Bhubaneswar, Odisha

Computer vision uses cameras and AI to analyze traffic flow, identify objects. This data feeds Intelligent Transportation Systems, optimizing traffic lights, detecting accidents, and improving overall road safety.

04.2023

IPL Data Analysis to predict First Innings Scores

Gram Tarang, CUTM, Bhubaneswar, Odisha

Built a machine learning model to predict the first inning score in IPL matches, leveraging historical data on teams, players, and past performances.

EDUCATION

2020 - 2024	B.Tech, Computer Science & Engineering Centurion University of Technology & Management, BBSR, Odisha CGPA: 8.32
2018 - 2020	Class XII (PCM), CBSE Delhi Public School Jubilee, Motihari, Bihar Percentage: 73.6%
2017 - 2018	Class X, CBSE Delhi Public School Jubilee, Motihari, Bihar Percentage: 64.6%

PROJECTS

Full Stack:

- E-commerce Website
- Weather Application

Machine Learning:

- Real-time Traffic Sign Board Recognition
- Stock Market Price Prediction
- Leaf Disease Detection
- Crime Against Women

Robotics & IIOT:

- Automated obstacle-avoidance vehicle
- Anti-Theft System
- Self-Balancing Robot
- MQTT Protocol

CERTIFICATION

- Cloud Practitioners – Amazon Web Services
- Java Programming – CodeTantra
- Generative AI – Google Cloud Skills Boost
- Live Furnish Python Developer – Hackveda Limited
- Soft Skills – TCS iON
